**Fea's Petrel**  
*Pterodroma feae*

Fea's Petrel from pelagic west of the Isles of Scilly, Sep 2004 - © Glen Tepke

**NOTE:** Whilst only 3 definite Fea's Petrels have been accepted by the BBRC, and none by the IRBC, we also include on this page the accepted records of Fea's/Zino's Petrels. Western Irish headlands in August are the best place to connect with this species, but if you want photographic evidence to clinch the id, then head to sea in the Southwest Approaches.
